I have a strong interest in the field of web development. I realized this interest through my experience developing websites while working in F&B as well as my internship experience in the web developer division at an agency company.

## WORK EXPERIENCES

### INTERNSHIP WEB DEVELOPER

June 2025 - Now

#### Sinergi Inovasi Tekno (Agency)

- Assist in the development and maintenance of new features for existing and new web applications.
- Write clean, efficient, and well-documented code.
- Participate in code review sessions to ensure code quality and standards.
- Learn and apply new web development technologies and best practices.

### BARISTA & WEB DEVELOPER

December 2024- June 2025

#### Merra Coffee & Talk, Kudus

- Develop and maintain a web-based inventory system to support operations and simplify stock recording.
- Prepare and serve a variety of beverage menu items according to quality standards. Provide friendly and informative service to customers. Responsible for sales transactions as a cashier.

### FREELANCER WEB DEVELOPER

May 2023 - Now

#### Personal Bussiness

- Create and develop website appearance using HTML, CSS, and JavaScript (and frameworks such as Bootstrap or Tailwind).
- Develop a simple Website using PHP/Laravel or Node.js.
- Manage a database (MySQL/PostgreSQL) to store application data.
